

## **CALL OF DUTY GUIDE**

### **GUIDE**

You must ensure this is done before trying to download our products.

### **ANTI-VIRUS**

Disable all anti-virus and any third party software's.

You can install windows defender - which will turn all anti-virus off.

### **CORE ISOLATION**

You must go to your core isolation settings, and disable memory integrity.

If you don't have access to these settings, you must launch your BIOS and enable Virtualization.

### **SECURE BOOT**

You must launch your BIOS settings, and disable Secure Boot.

### **\*\*VANGUARD AND FACE-IT\*\***

You must uninstall any riot vanguard or face-it anti cheats.

### **Injecting**

- Open Loader
- Enter License Key
- Start Injection
- It'll say 'Start Game' or 'Load Success'
- Open the Game
- Wait for the menu to load
- Use INS to open/close menu. (Home for BO6 External)
